## Our Tables

For our robust table tops, we use volcanic stone from the Viterbo quarries, which we heat in the oven to over 1000 ° C. The stone is painted by hand, crystallized and placed in the oven a second time, making the colors particularly intense and radiant.

## Individuality

You can determine the dimensions (size and shape) of your table individually: round, oval, rectangular or square. The design can also be completely personalized. This means that personal elements can also be incorporated, in some cases at no extra charge. Contact us and let us make you a personal offer!

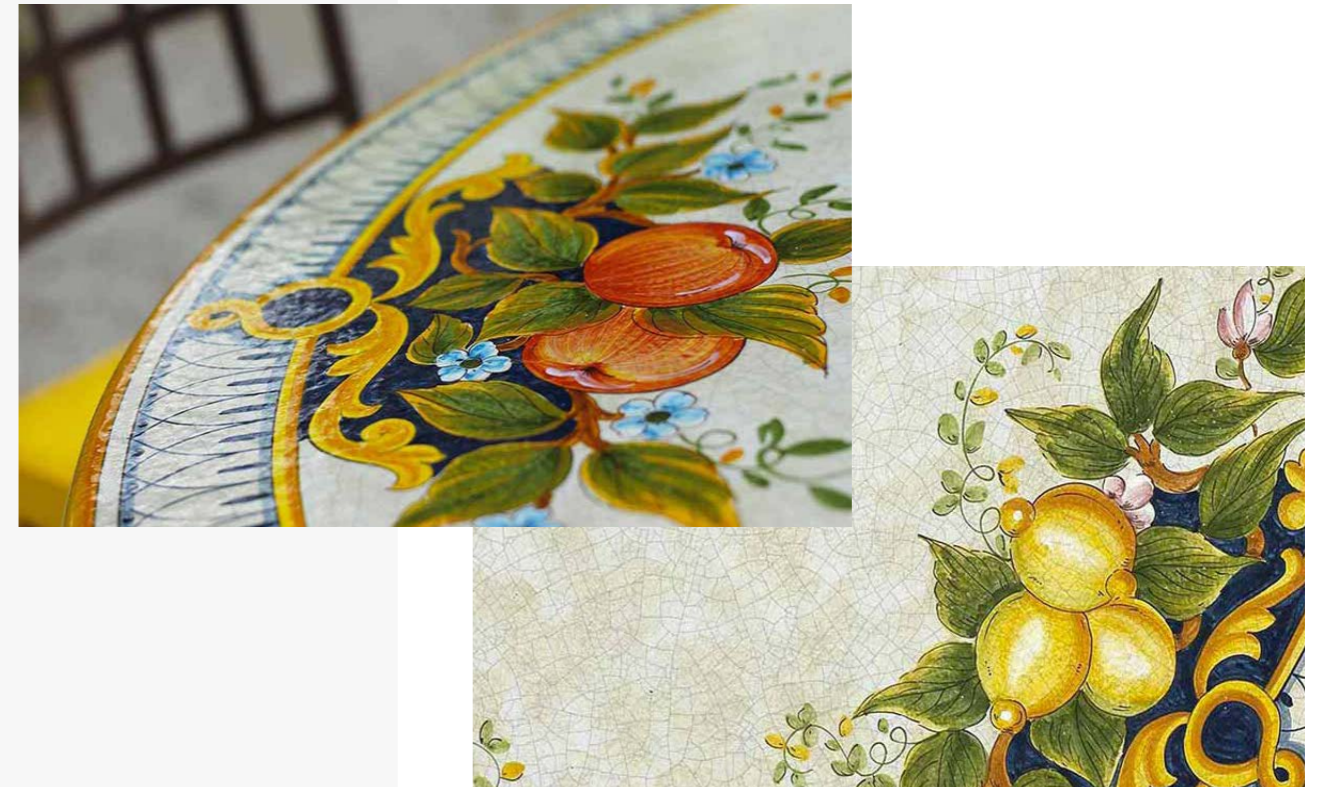

## Business Customers

We have special offers for business customers. In addition to the customizable design, a logo can also be added to give your tables that last bit of individuality. Of course, there are discounts for a larger order quantity!

## Melograno

The beautiful and finely arranged fruits are surrounded by an elegant frame. They are displayed on a light background, which provides an excellent effect.

## Giardino

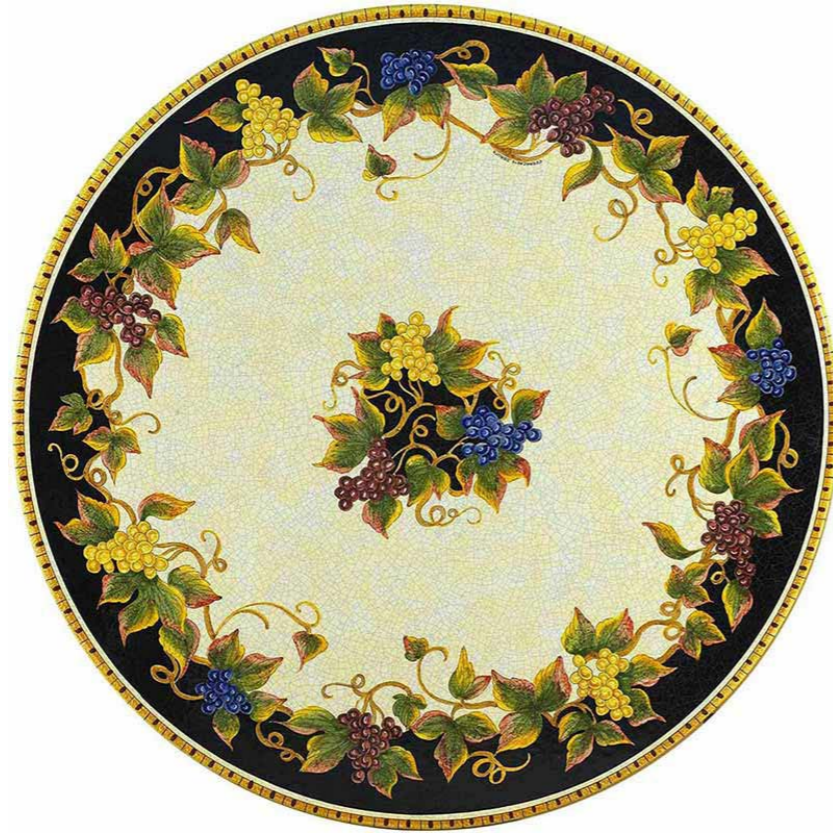

A beautiful garden: Daisies and lemons combine on a wide, dark band to create a contrasting and very noble composition. The middle is kept free; only a few leaves protrude into it.

## Lungomare

Grapes, lemons and other elements of nature form a wreath that extends along the outer edge, which is set off from the rest by a very dark blue and thus provides a pleasant contrast.

# Natura

Inspired by grape vines, a wide variety of classic elements of nature come together to form a wonderful composition. The colors come into their own thanks to the black background.

## Taormina

In a blue and white frame there are opulent fruits, leaves and golden decorations on the table top, which provides an extravagant and exclusive look. In any case and in any environment you are sure to have a highlight!

## Casale

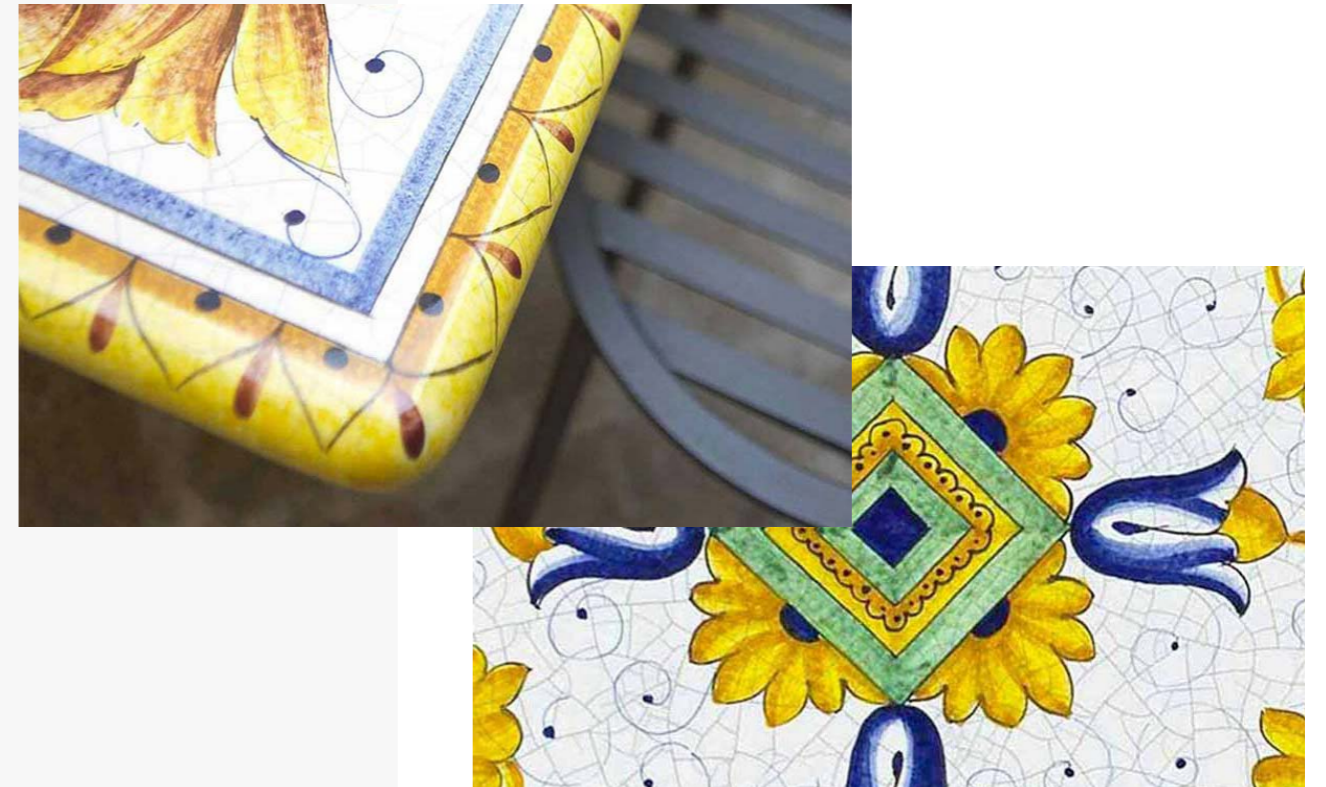

A refreshing green border, which runs inwards to a more plain white, is adorned with apples, lemons and grapes. Highlights are set by very fine leaves and blue flowers, which round off the work of art.

## Toscana

Classic and richly decorated: the entire table surface is decorated with colorful flowers on a light background. Tulips, roses and branches of flowers stand out and form pretty ornaments. The frame is kept delicate and light.

## Rosa

Roses have always had a special meaning and give the table top a classic, romantic and style-conscious appearance. The leaves shine in a golden light and thus refine the composition even further.

## Trevi

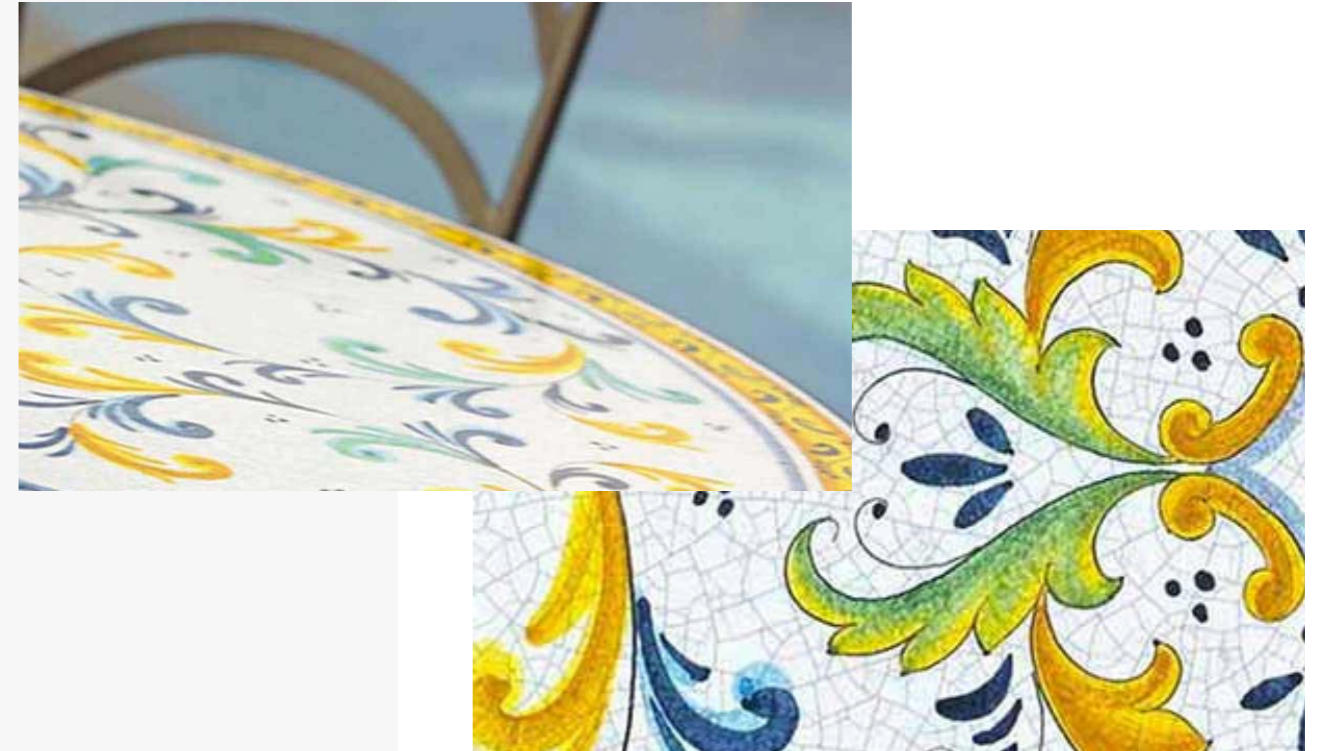

The symmetrical pattern is determined by contrasting, harmonious complementary colors and matching subtle ornaments that further underline the classic design. This makes the balancing act between simplicity and extravagance perfect.

## Renaissance

Elegant and cheerful: stylized branches in the colors yellow, green and blue come together on a light background to form a cheerful picture and are held together by an elegant frame in the same matching colors.

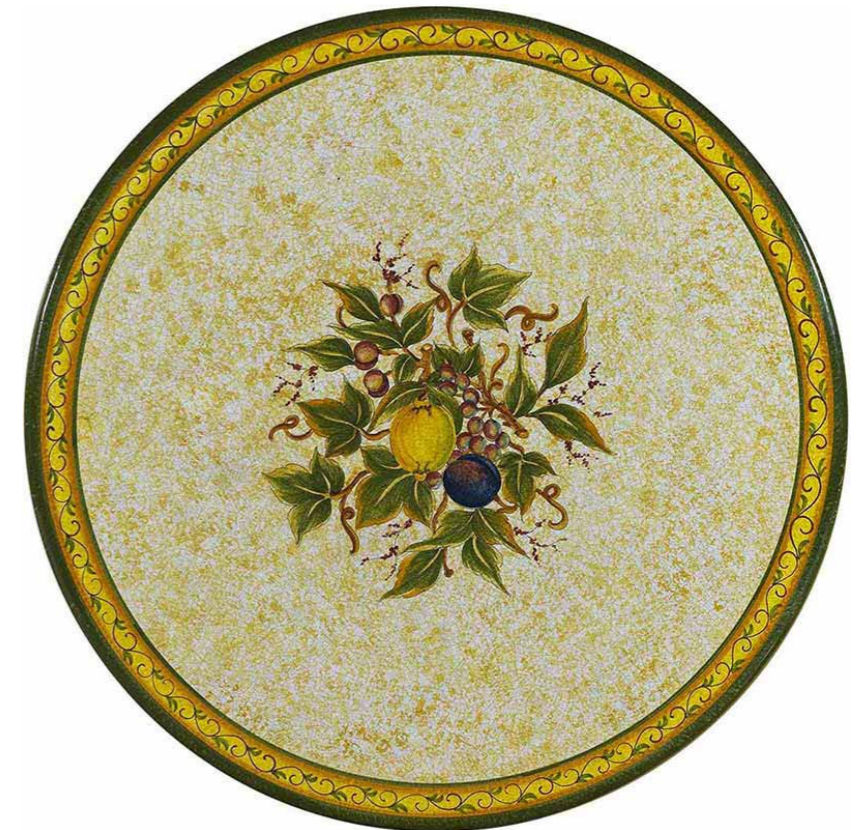

## Ulivo

Perfected pleasure: olive branches are elegantly refined into a ribbon around the table. The colors move in tasteful shades of green with smaller accents of brown.

## Spoleto

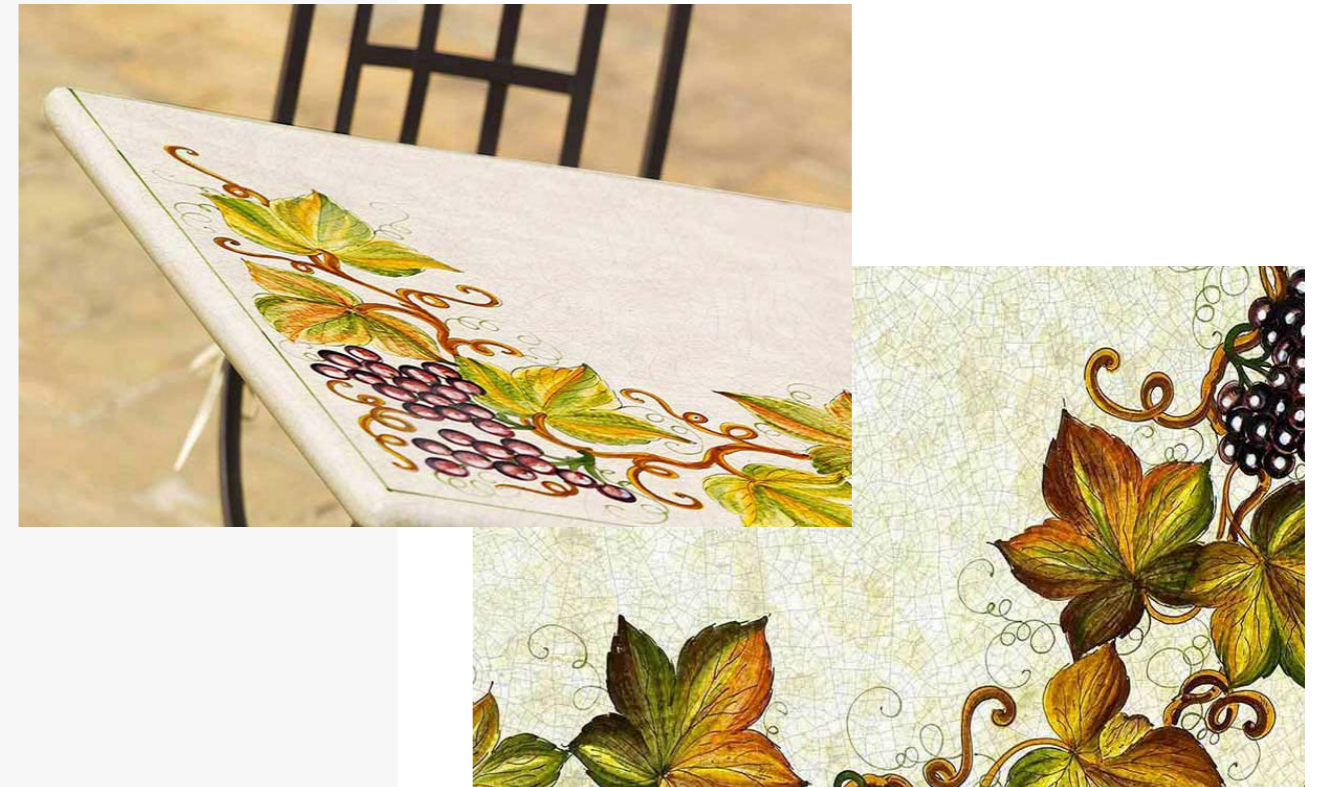

Natural elements in the form of fruits, leaves and twigs are positioned in the middle on a brown-beige background. These are held in a finely decorated olive-golden frame.

## Montepulciano

The calm of autumn: On a warm, light background there are grapes and leaves in an autumn-brown-golden color along the edge, which give the table top a cozy and calm atmosphere.

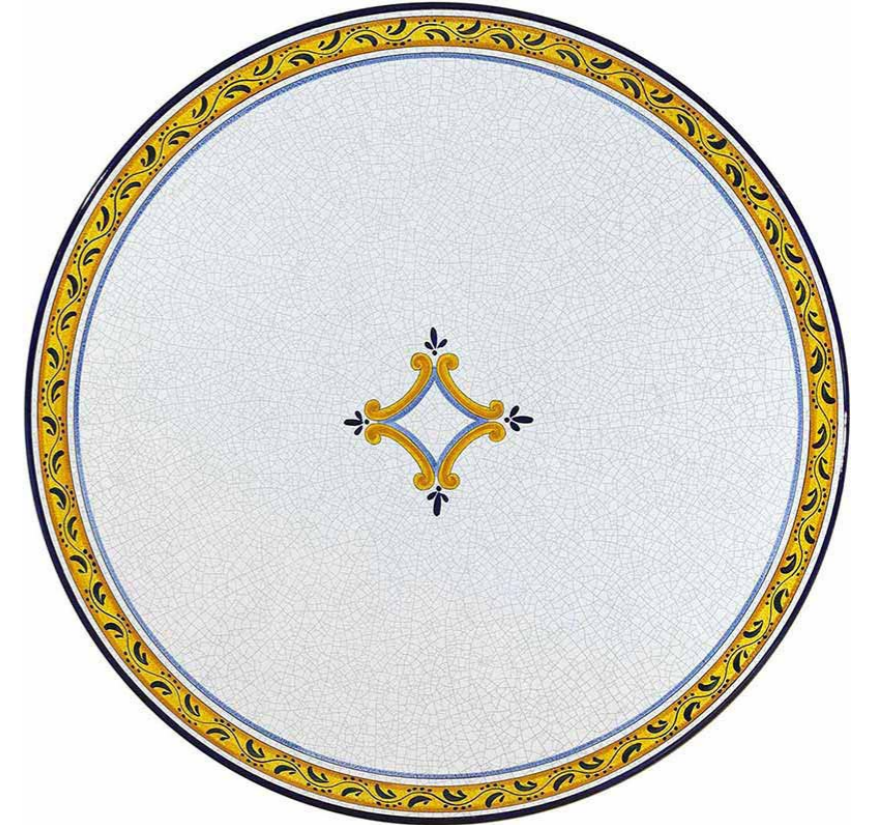

## Armonia

Fine paintings of fruits, vegetables, flowers and leaves can be admired on a yellow background. With their central positioning, they appear like the focus point of a successful thanksgiving.

## Rombo

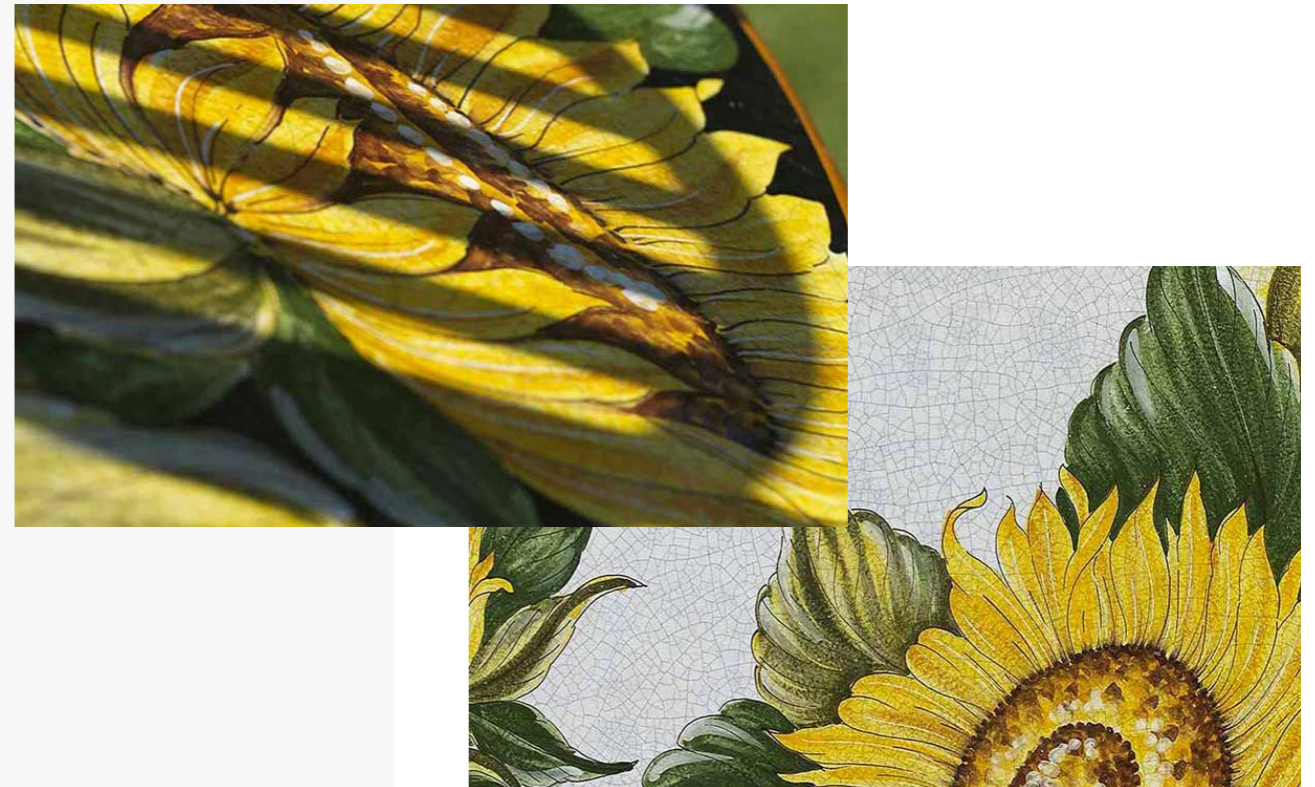

The golden border is decorated with dark ornaments in a floral style, completed by dark blue contours. In the middle there is a beautiful diamond that reflects the colors of the edge.

## Girasole

The dynamically blooming, yellow sunflowers extend over the lower edge, while the light area in the middle takes on the effect of the sun and thus provides a relaxing balance.

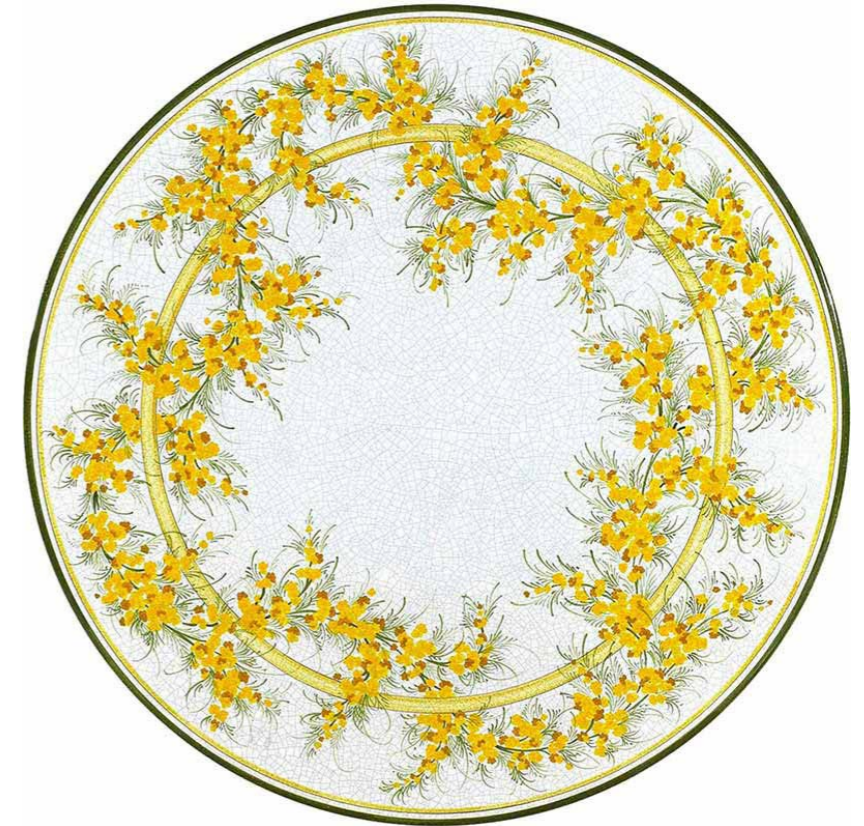

## Fantasia

On a light background, twigs with small flowers and leaves curl together to form a delicate, enchanted border, in which three small blue dots can also be found here and there.

## Delicato

Delicate contrast: yellow mimosas nestle softly against a light yellow ring on a minimalist white background. The dark green edge of the table top completes the pretty picture.

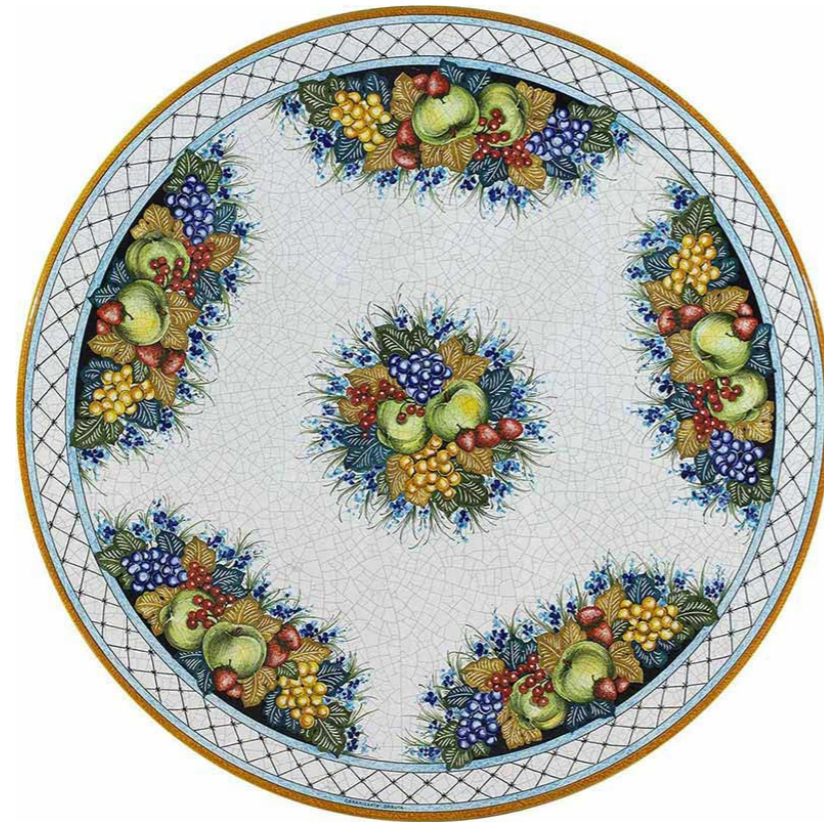

## Liberty

Elegant and timeless: on a light background lies a golden yellow wreath of stylized leaves, reminiscent of a victory crown from ancient days gone by.

## Ruffini

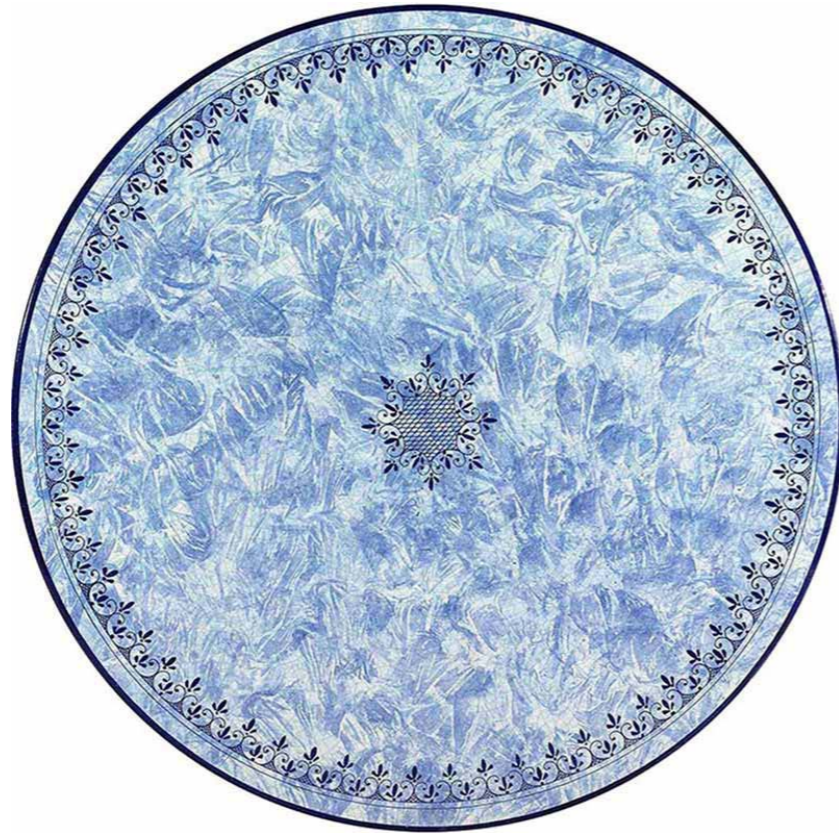

Clusters of different fruits and floral elements are positioned on the outside and in the middle. They are complemented by a border with a lively checked pattern that perfectly sets the scene for the other elements.

## Uvetta

The blue and white background is decorated with detailed images of lemons and grapes. The leaves are also designed with attention to detail. The eye-catching lemons create a cold-warm contrast to the background.

## Delfino

The refreshing blue background resembles frost or water and thus creates a cool impression. Delicate and classically staged ornaments complete the work of art.

## Orchidea

The black leaves perfectly showcase the blue orchid blossoms. The remaining lovingly detailed elements give the work of art a serious impression, with the red umbels loosening everything up.

## Oceano

Cool and very elegant: a blue band of waves surrounds a light background. In the middle, the waves come together in a spiral to form a beautiful ornament.

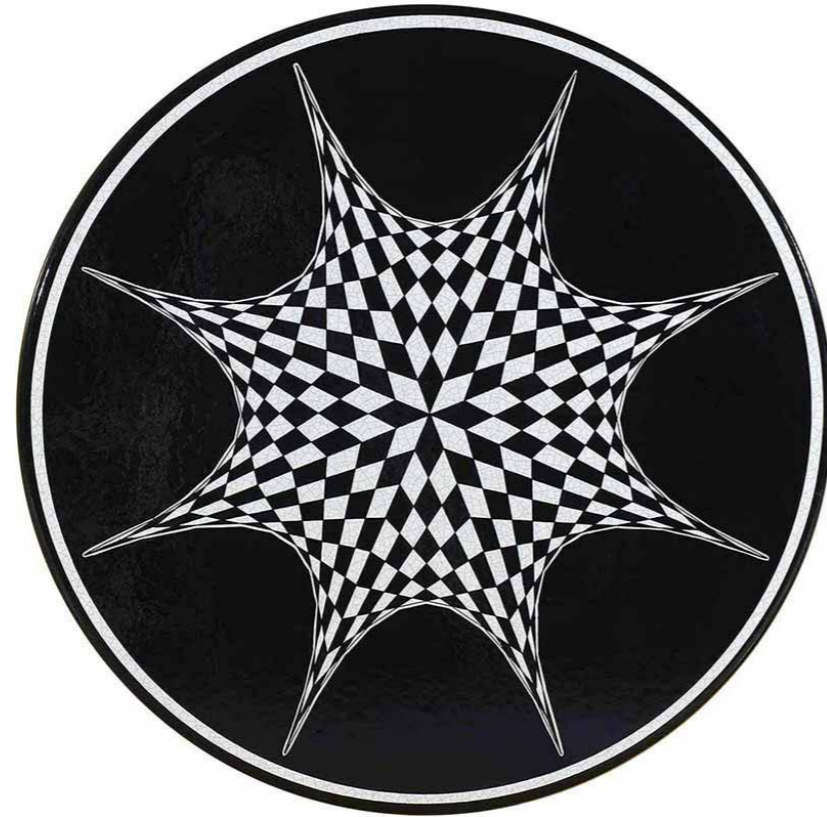

# Van Gogh

A work that is reminiscent of Van Gogh with its yellow sunflowers, red poppies and artistic leaves is presented on a dark background. This design is an explosion of colors that you can't get enough of.

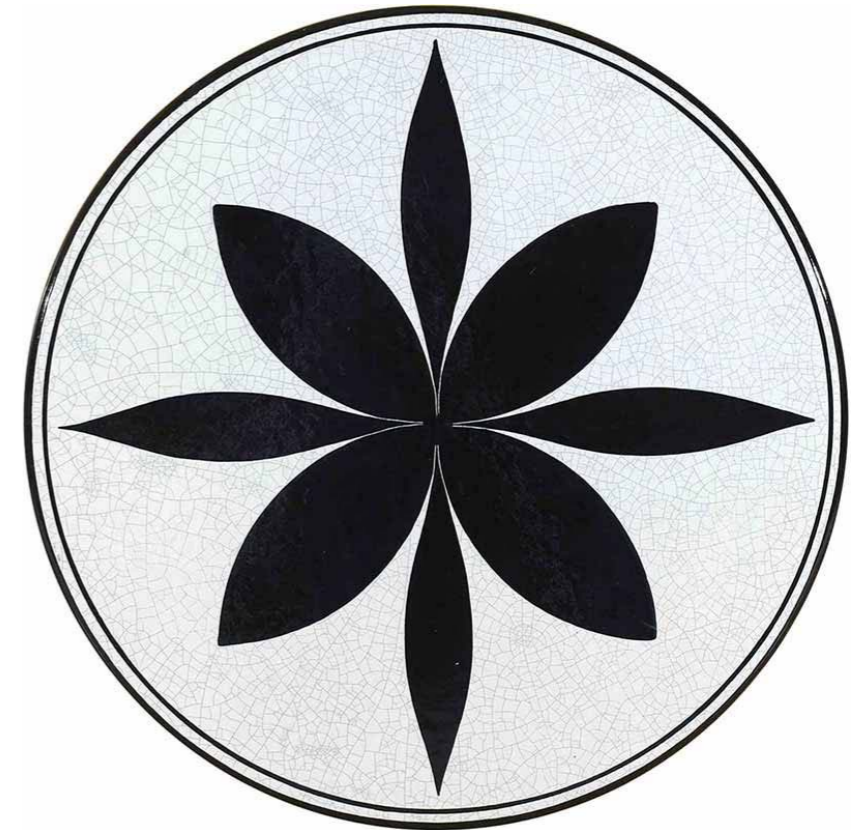

## Stella Polare

A distorted checkerboard pattern in the form of a star attracts attention with its futuristic optical effect. At the same time, the design is reminiscent of marble, which creates a noble and style-conscious impression.

## Ombra

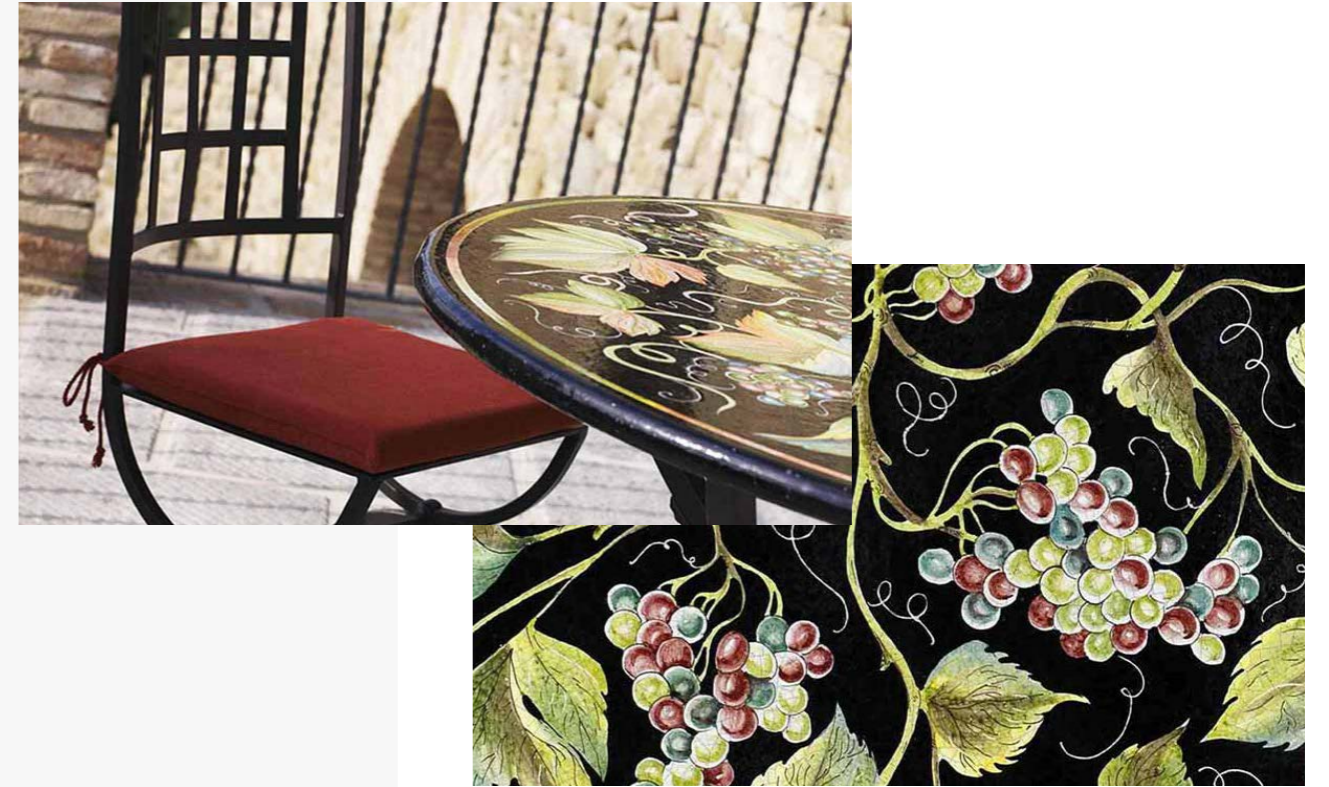

In contrast to the „Stella Polare“ table top, this one has a white background on which you can find a symmetrical shape that is reminiscent of an abstract flower or its shadow. This table top also impresses with its skilful simplicity.

## Barolo

A lively depiction of a grapevine is shown here, further developed with fine decoration. While the different colored grapes set accents, the leaves ensure plasticity with their skilful shades.
